TAXMANN.AI

Introducing

3

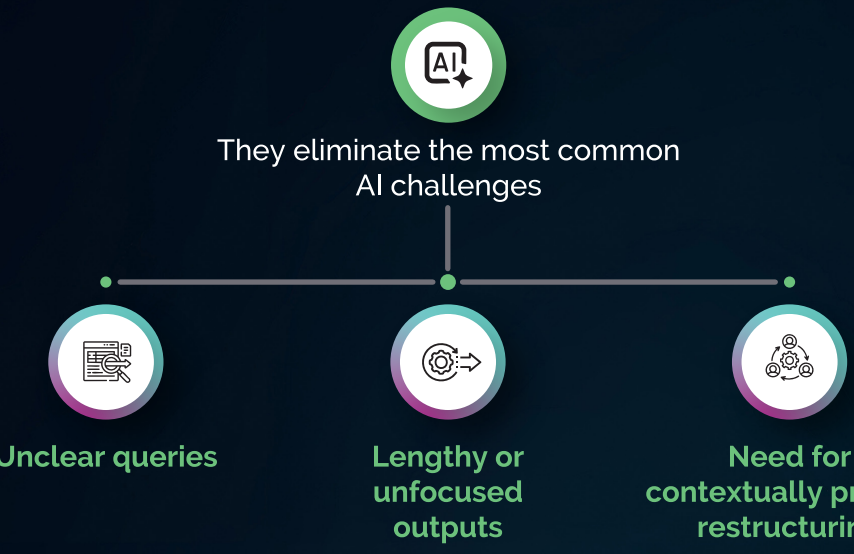

New Features

- → Improve Prompt
- → Rewrite
- → Concise Style

Three Smart Enhancements for
Faster | Sharper | More Accurate Legal Research

Taxmann.AI now introduces three intelligent smart feature enhancements—
Improve Prompt, Rewrite and Concise Style.

Together, they deliver **more clarity, more control, and more speed** across every query, response and drafting task.

1. IMPROVE PROMPT

Transform Unclear Queries into Professional, Legally Structured Questions

What It Is

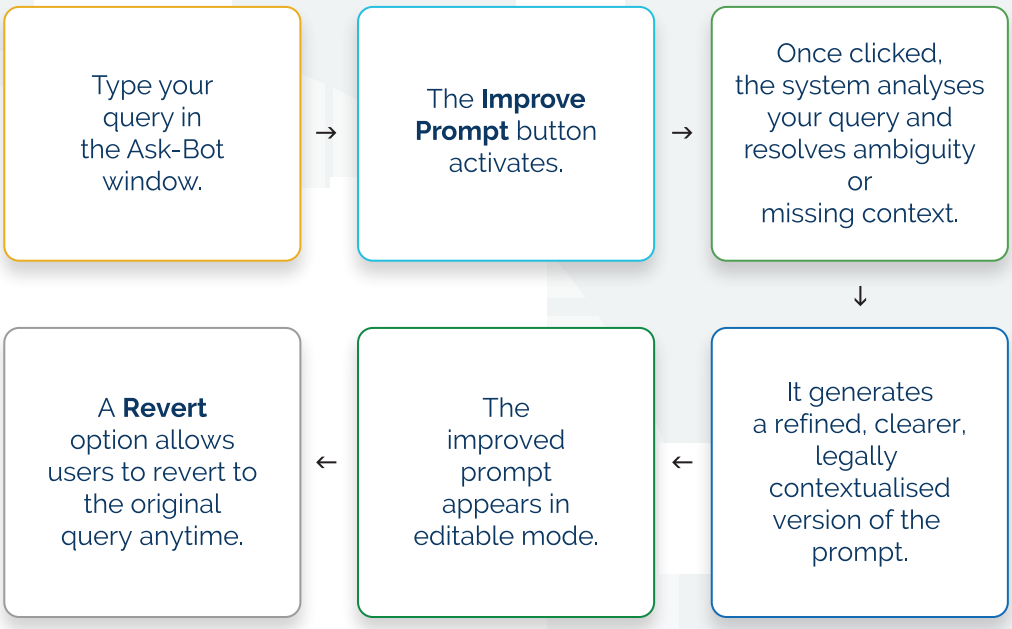

Improve Prompt is an intelligent assistant that automatically rewrites user queries into well-structured, complete, legally relevant research questions.

Even when users know **what** they want to ask, they often struggle with **how** to frame it so the AI understands the legal context. This feature bridges that gap instantly.

It solves challenges like:

- → Vague or incomplete queries
- → Missing legal context
- → Unclear terminology
- → Poorly structured research questions

How It Works

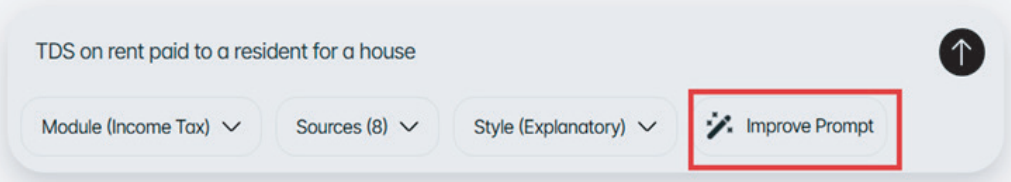

What You Can Achieve

- → Convert unclear questions into precise research prompts
- → Get more accurate answers on the **first attempt**
- → Save time otherwise spent rewriting or refining questions
- → Learn how to ask better questions by observing improvements
- → Receive legally aligned, comprehensive prompts without needing prompt engineering skills

Example

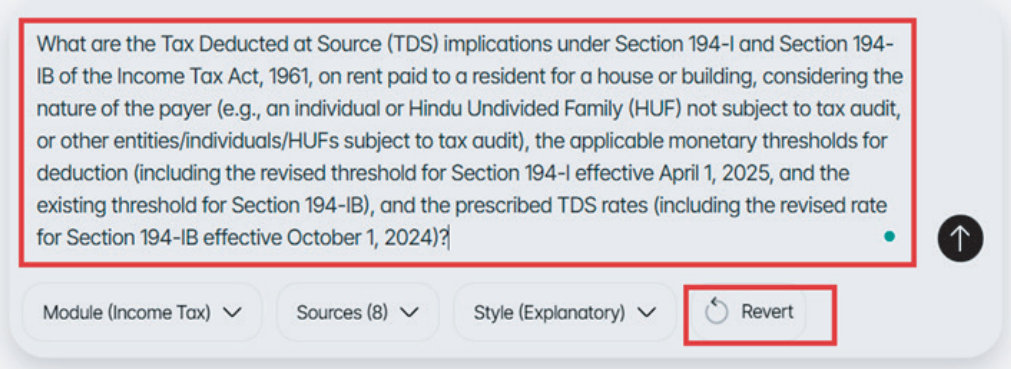

Original Query –

"TDS on rent paid to a resident for a house."

Improved Prompt (Generated) –

"What are the Tax Deducted at Source (TDS) implications under Section 194-I and Section 194-IB of the Income Tax Act, 1961, on rent paid to a resident for a house or building, considering the nature of the payer (e.g., an individual or Hindu Undivided Family (HUF) not subject to tax audit, or other entities/individuals/HUFs subject to tax audit), the applicable monetary thresholds for deduction (including the revised threshold for Section 194-I effective April 1, 2025, and the existing threshold for Section 194-IB), and the prescribed TDS rates (including the revised rate for Section 194-IB effective October 1, 2024)?"

2. REWRITE

Refine, Expand, or Redirect the AI's Response to Match Your Exact Needs

What It Is

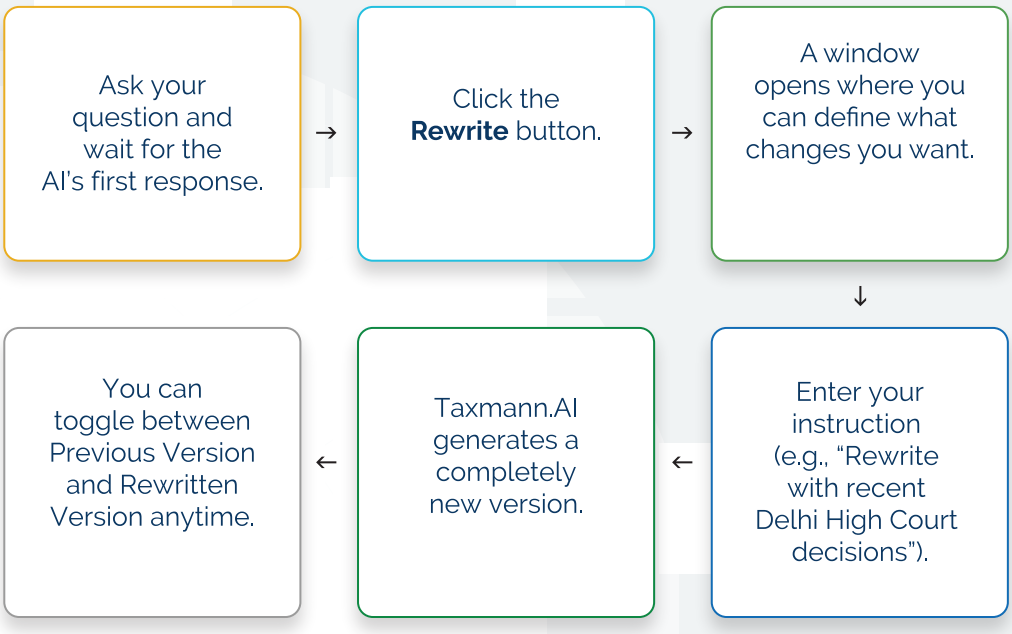

Rewrite gives users complete control over the output generated by the AI.

Instead of treating responses as final, users can instruct Taxmann.AI to:

- → Refocus the answer
- → Include/exclude sections
- → Add case laws or citations
- → Expand or shorten
- → Shift focus to a jurisdiction, topic, or time period
- → Update with latest judgments

This makes Taxmann.AI an active **research partner**, not just an answer generator.

How It Works

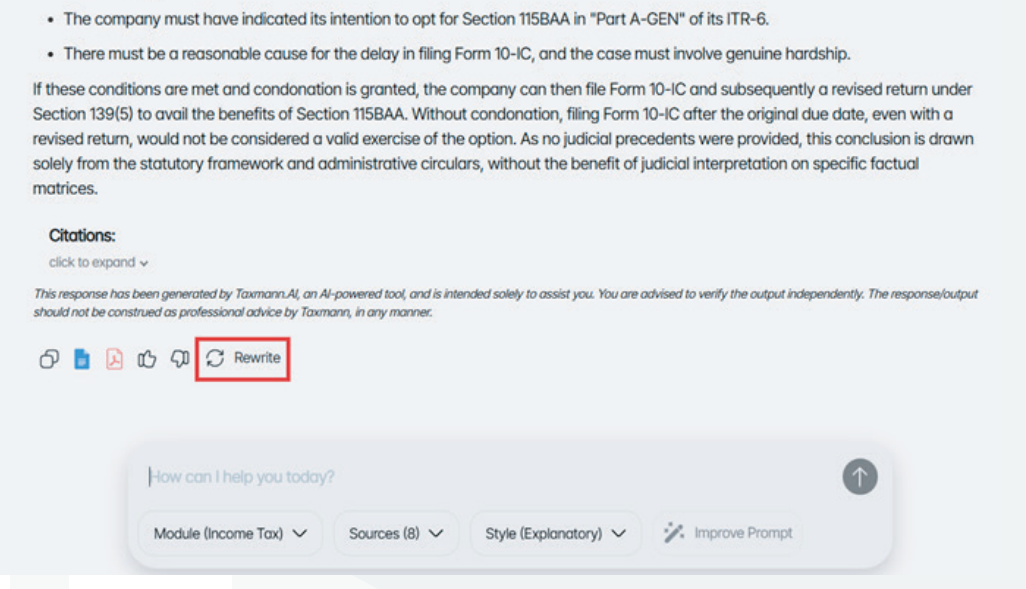

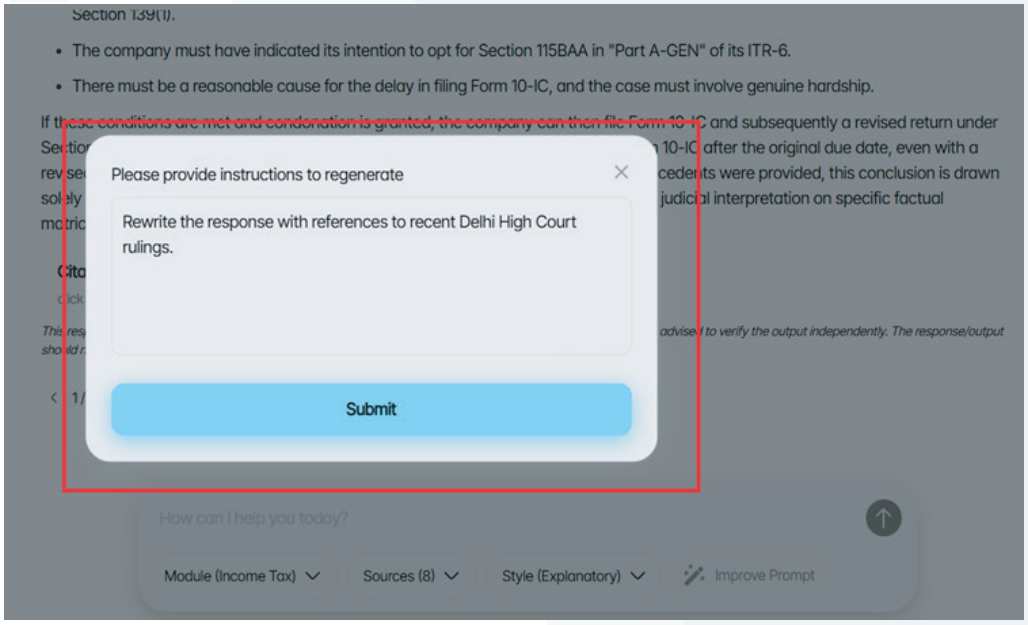

What You Can Achieve

- → Customize responses exactly to your requirements
- → Add depth, include case laws or focus on any particular provision
- → Refine the research within the same conversation thread
- → Improve accuracy by instructing the system to include specific focus areas
- → Save time and avoid rewriting manually

Example Instruction

"Rewrite the response with references to recent Delhi High Court rulings."

3. CONCISE STYLE

Get Quick, Sharp Responses When You Don't Need Detailed Analysis

What It Is

Concise Style is designed for fast, to-the-point answers.

It is ideal for:

- → Quick definitions
- → Compliance checks
- → Verifying dates, rates, thresholds
- → Client call lookups
- → Initial scoping before deep research

It prioritises brevity and speed, offering responses up to **80% faster** than detailed mode.

How It Works

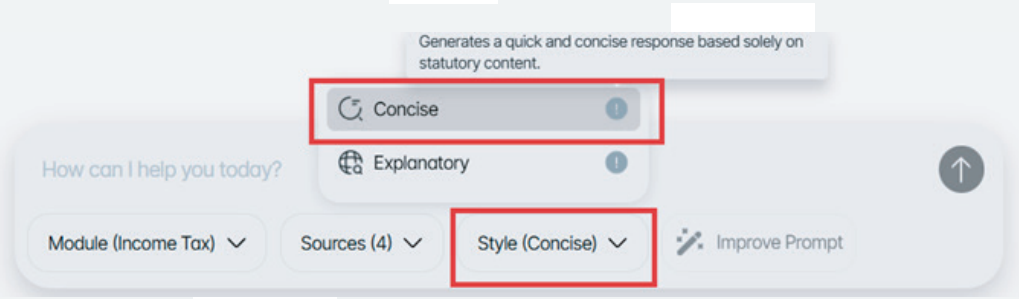

Choose **Concise Style** before submitting your query. → Taxmann.AI provides a short, focused response based on statutory content. → If more detail is required, simply ask: **"Explain in detail."**

What You Can Achieve

- → Instant answers when time is critical
- → Quick validation of facts, rules, timelines
- → Ability to scan multiple legal topics quickly
- → High-level insights before starting deep research
- → Faster client interactions during calls or meetings

Limitation

Because it draws from a smaller set of content, responses may not be exhaustive. For detailed explanations, deeper analysis, or full citations—switch back to Explanatory mode.

The addition of Improve Prompt, Rewrite, and Concise Style makes Taxmann.AI more intelligent, adaptable, and aligned with the real needs of legal and tax professionals. Whether users want clearer questions, refined answers, or faster responses, these features combine to create a more efficient, research-oriented workflow.

TAXMANN.AI

Taxmann.AI

AI That Carries a Legacy of Trust.

Taxmann.AI brings India's most trusted legal and tax content to your workspace through intelligent, structured research and drafting.

Every answer is source backed.
Every draft is professionally formatted.

Ask with Precision –

Pose any tax or legal query in plain language—get reliable and verified responses instantly.

Draft with Structure* –

Build professional-grade replies of notices, and documents—with clarity, legal backing, and format control.

Tools That Work for You* –

- **Library –** Every query, draft, and saved prompt lives in your personal Library.
- **Summariser –** Understand lengthy documents at a glance.
- **Matching Records –** Instantly find judgments, circulars, or provisions that relate to your query.
- **MS Word Plugin –** Access Taxmann.AI's features right within your familiar environment.

Built for professionals who demand clarity | reliability | speed.

*Coming Soon

Professionals deserve more than just fast answers—they deserve verified ones.
